

BURRAQ UR REHMAN

Ruby On Rails | Full Stack Developer

burraqdeveloper@gmail.com | (+92)308-7042813 | Lahore, Pakistan

PROFESSIONAL SUMMARY

Passionate Full-Stack Developer with 5+ years of experience delivering robust, production-ready applications. Adept at transforming product development through the strategic use of data and AI. Proficient in modern web technologies, with a strong command of TypeScript, React, Angular, Ruby, Python, and Node.js.

Proven track record of mentoring junior developers, promoting best coding practices, conducting thorough code reviews, and supporting career growth. Highly motivated by building impactful tools that solve real-world problems and contribute to business success. Actively exploring the intersection of software development and artificial intelligence to drive innovation.

EDUCATION

Bachelor's in Information Technology
University of Education (UOE), Lahore, Pakistan

Sep, 2017 – Sep, 2021

Relevant coursework: Software Engineering, Database Systems, Web Development, Data Structures & Algorithms, Networking.

PROFESSIONAL EXPERIENCE

Fullstack Developer
Xprolabs, Lahore, Pakistan

Oct 2021 – Present

- Built production-ready web applications developed and maintained multiple in-house modules.
- Developed full-stack solutions using TypeScript, React, Ruby, and Node.js, directly aligning.
- Collaborated cross-functionally with designers, product managers, and backend engineers to deliver user-centric solutions.
- Implemented CI/CD pipelines reducing deployment time by 40% and improving code quality through automated testing.
- Contributed to internal tooling that improved developer productivity and streamlined workflows.
- Designed and implemented REST APIs using Node.js, integrating with a React-based frontend.
- Conducted thorough testing and debugging to ensure software quality. Continuously evaluated and improved the performance and scalability of applications.
- Enhanced product performance by optimizing complex SQL queries and reducing latency.

Key Projects

- *Kinari*: Built a multilingual survey feature, enabling users to create, store, and translate surveys dynamically while supporting CSV import/export. Enhanced functionality includes survey builder fixes, backend validation, result visualization, user impersonation, messaging, background jobs, multi-step forms, and URL-based surveys. using React and Node js.
- *Supply Chain Management System*: Built a project from scratch with robust business logic and architecture, featuring multi-profile logins via Devise for manufacturers and buyers. Key features include reviews, subscription plans, an e-commerce store, data scraping for manufacturers, and AWS deployment with S3 and RDS for scalability, with TypeScript and AWS services.
- *Mr Cooper Apollo*: Developed Apollo Web, a microservices-based customer loan management platform. The system streamlines home loans, offering seamless buying, selling, and refinancing experiences. Integrated features like Cooper Ca\$hback for real estate rewards, a Pre-Approval Tool,

a Digital Loan Tracker, and a Close On Time Guarantee ensure a smooth and rewarding homeownership journey.

- *Clinical Scribe*: Implemented voice-to-text clinical notes, enabling doctors to dictate observations for efficient documentation. Added task management for tracking to-dos, detailed doctor and patient profiles, and online appointments for remote consultations.

Associated Software Engineer

Mar 2021 – Oct 2021

Southville Solutions, Lahore, Pakistan

- Gained foundational experience in software development and agile methodologies.
- Worked with diverse technologies including Node.js and JavaScript/TypeScript, React, Angular, HTML5, CSS3, Bootstrap.
- Demonstrated learning agility by quickly adapting to new frameworks and tools.

TECHNICAL SKILLS

Backend & Frontend Development

- Ruby, Ruby On Rails, Node.js, Express.js, RESTful APIs
- Python (FastAPI, Django/Flask)
- API Integration & Data Management, database design and optimization (SQL, PostgreSQL, NoSQL)
- JavaScript/TypeScript, React, Angular, HTML5, CSS3, Bootstrap
- Ajax, Tailwind, jQuery, responsive design, modern UI/UX principles
- State management (Redux, Context API)

Cloud & DevOps

- AWS (EC2, S3, Lambda, RDS, Alarming)
- Docker containerization, external data scraping
- CI/CD pipelines, version control with Git, GitHub, GitLab, Bitbucket

Emerging Technologies

- Machine Learning basics (Python, scikit-learn)
- Large Language Models (LLM) integration
- API development and third-party integrations

Operating Systems & Scripting

- Mac OS
- Linux

CERTIFICATIONS

Learning SQL Programming

May, 2024

- *LinkedIn Learning*
- [Credential ID: 5f85834512ab97c90718cfe962c6debed9588f0b982114e97536360a9fea642d](#)

AWS Certified Developer - Associate

May, 2025

- Udemy Learning
- [Credential ID: https://www.udemy.com/certificate/UC-be3e391a-3781-4e7f-9e72-44ba0be4a380/](https://www.udemy.com/certificate/UC-be3e391a-3781-4e7f-9e72-44ba0be4a380/)

ACHIEVEMENTS

- **CMMS Launch Contributor** | *Xprolabs* | 2023 - Led team launching system, improving efficiency by 45%
- **Performance Excellence Award** | *Xprolabs* | 2023 - Optimized application response times by 35%
- **Team Leadership Recognition** | *Xprolabs* | 2023 - Mentored 3 developers with 100% retention rate
- **Programming Competition Winner** | *UOE Tech Fest* | Month, 2020 - 1st place in coding competition
